## NEXT MEETING

Members of the Council are summoned to the **PARISH COUNCIL MEETING** to be held on Monday the 3<sup>rd</sup> March 2025 at Cottam Community Centre Haydocks Lane commencing at 7.30pm

  
W V McEnnerney-Whittle Clerk and RFO

## A G E N D A

1. To receive apologies
2. To consider and approve the Minutes of the Meeting held on the 20<sup>th</sup> January 2025 (enclosed)
3. To receive Declarations of Interest
4. To adjourn the meeting for a period of public discussion

*Please note that the Council may not make any lawful decision during this session – any items raised by members of the public may be considered for a future agenda. Members of the public are defined as any person present other than parish council members or officials.*

5. To consider a response to the planning application 06/2025/1254 for the building of 24 residential units (Class C) and commercial development Class E 9g) with associate access, landscaping and infrastructure at Land off Cottam Way Cottam.
6. To approve the following payments:

02/12/2024	NEWGATE NURSERIES PLANTING CANBERRA MEMORIAL CIL	81	214.80
02/12/2024	SAVOY TIMBER BENCH PROJECT CIL	82	111.68
02/12/2024	S FITZPATRICK LENGTHSMAN TEAM	83	720.00
02/12/2024	A BARTLETT LENGTHSMAN TEAM	84	708.00
02/12/2024	G THOMPSON LENGTHSMAN TEAM	85	780.00
02/12/2024	GGs LENGTHSMAN TEAM	86	2666.00
17/12/2024	WV MCWHITTE SALARY & EXP 3RD QTR	87	3200.84
17/12/2024	SLCC 1/3 SGARE SUBSCRIPTION	88	120.00
17/12/2024	BG FENCING MATERIALS DRAINAGE WORKS CANBERRA MEMORIAL CIL	89	211.10
17/12/2024	VISION ICT WEB SITE HOSTING AND SUPPORT	90	282.00
17/12/2024	HMRC 3RD QTR	91	2483.13
17/12/2024	GGs LENGTHSMAN TEAM	92	1307.00
17/12/2024	SANDERSON AND SONS	93	1631.40

21/01/2025	EON NEXT ELECTRICAL SUPPLY	105	27.05
28/01/2025	G THOMPSON LENGTHSMAN TEAM	106	540.00
28/01/2025	S FITZPATRICK LENGTHSMAN TEAM	107	540.00
28/01/2025	SAVOY TIMBER BENCH REPAIR CIL	108	36.61
28/01/2025	A CROSS LENGTHSMAN TEAM	109	450.00
28/01/2025	GLASDON NEW BENCH ON CANAL CIL	110	730.92
28/01/2025	A BARTLETT LENGTHSMAN TEAM	111	360.00
28/01/2025	GGs LENGTHSMAN TEAM	112	2322.00
31/01/2025	BANK CHARGES	113	8.55

7. To consider further enhancements to the War Horse and surrounding area. The War Horse has been cleaned however, there are damaged areas to both ears and one ear has a crack at its base. The original sculptor who did the enhancements to the Canberra Statues and also did the original War Horse has quoted £2200 to do the work to bring the feature back to its original level.

The surrounding area which represents 'water' has also deteriorated with time. A quote has been received from Soft Surfaces, who undertook replacing the Community Hall play surface has provided a quote of £3720 to recover the 'water' area with Wetpour Rubber Surfacing (as used at the Community Centre) in either a plain blue or water blend (an example of the latter will be available at the meeting).

The front grass area needs attention – this can be re-turfed by our lengthsmen team with materials at an approx price of £500.

To the rear of the feature was an area filled with loose gravel which is now little more than a muddy area mainly covered with weed. Soft Surfaces are able to supply and install a Resin Base Rubber Mulch, including a geotextile membrane which would transform that part of the area and complete the enhancement of the area, once again making it a feature for the area at a cost of £2150.

Quotations are enclosed for perusal – please note that they do expire before our meeting but as it is only by a matter of days it is hoped that they will hold should this Council decide to go ahead with the works outlined. It will also be necessary to put up a temporary fence around the site so as to allow the Wetpour to harden, this would be done by our lengthsmen team after installation for a period of approx 48 hours. Whilst it is hoped that PCC might be able to supply appropriate metal fencing there could be a cost in order to protect the site from damage during this time.

Total Costs excluding any temporary fencing as known are £8570 – it is suggested that a budget using CIL funds should be set at £10K to allow for any price variations or contingencies during the work should this Council wish to go ahead with the whole of the project.

Approval of Preston City Council for this maintenance work will be required.

8. To consider the enclosed report and agree or otherwise the recommendations that are set out therein with regard to members dedicated email addresses, 'cloud' back up of Council electronic records and retention of records on members personal devices.
9. To consider the working group recommendations with regard to the proposed Information Boards already agreed as part of the Canberra Memorial project. The working group looked at two options with regard to the boards and whilst they did identify a cheaper option than that being recommended, felt that to complete the project it was important to procure a high level of quality and use a company who already work with BAE who have all the requisite photographs and historic records to produce a professional high quality product which includes the writing of the wording and photographs which will form the story of the disaster.

The costs for the two boards range between £1888.00 to £2609.00 as per the attached quotations, depending upon the size of the information boards.

The budget allocation for this project was £6500 of which £1772 still remains as a result of savings elsewhere – should the Council wish to go ahead whichever option may be chosen it will require a slight budget adjustment from CIL funds to cover.

10. To consider and approve that the Lengthsman contract hourly rate of pay currently set at £18.00 per hour should be increased in line with inflation (CPI) currently at 3% to a figure of £18.55
11. To consider and approve that the Assistant Lengthsman contracts should be renewed for a further 12 months and that the hourly rates of pay, currently at £12 per hour and £15 per hour, should be increased in line with inflation (CPI), currently at 3% to figures of £12.40 and £ 15.45 per hour.
12. To note that the next meeting is scheduled for the 7<sup>th</sup> April 2025.

MINUTES of the **PARISH COUNCIL MEETING** held on

Monday the 20<sup>th</sup> January 2025 at Cottam Community Centre Haydocks Lane which commenced at 7.30pm

Present: Cllrs Butler, Gibson, Jewell, Rayfield, Whitham, Abram, Parker and Harper

There were four members of the public present together with Ian Wright from LCC who was present to address the Council on tree planting and how LCC might assist.

01/25 To receive apologies

*Cllrs Lambert and Brown*

*Cllr Lambert requested formal acceptance of his prolonged absence due to health issues.*

*It was resolved that the reason for the absence of Cllr Lambert as described above should be accepted.*

02/25 To consider and approve the Minutes of the Meeting held on the 2<sup>nd</sup> December 2024 (enclosed)

*It was resolved that the minutes of the meeting held on the 2<sup>nd</sup> December 2024 should be approved and signed by the Chairman as a true and accurate record.*

03/25 To receive Declarations of Interest

*None*

04/25 To adjourn the meeting for a period of public discussion

*Ian Wright from Lancashire County Council treescapes team was present and gave a short presentation concerning possible funded tree planting on Miller Green following Cllr Coward's investigation into improvements to Miller Green. The presentation explained briefly what the treescapes team does and how they work with parish councils to make tree planting happen. It was suggested that a further exploratory meeting took place to establish what might be appropriate for Miller Green bearing in mind the flooding conditions that existed on many parts of the Green.*

*A resident once again raised the issue of the footpath between Hoyles lane and Cottam Way which had been closed due to development works. Enquiries had already been made by this Council which established that there were several blockages to the original route which need to be addressed and that the LCC PROW Team were in discussions with the developers to resolve these issues which would probably need a diversion order being put in place.*

*A resident also mentioned that he thought there were to be allotments to the west of the housing development to the south of Hoyles Lane but now understood that dwellings were to be built on that land. The Clerk confirmed his original thoughts but understood changes had been made several years ago to the layout of the development and that he should contact Preston CC Planning Dept who would be able to confirm the approved layout.*

05/25 To approve the following payments:

04/11/2024	THOMPSON DAGNALL CANBERRA MEMORIAL PROJECT	71	4200.00
04/11/2024	NEWGATE NURSERIES HEDGE PROJECT	72	2048.10
04/11/2024	SANDERSONS GRASS CUTTING	73	1464.00
04/11/2024	S FITZPATRICK LENGTHSMAN TEAM	74	720.00
04/11/2024	A CROSS LENGTHSMAN TEAM	75	922.50
04/11/2024	GGs LENGTHSMAN TEAM	76	2242.00
04/11/2024	A BARTLETT LENGTHSMAN TEAM	77	288.00
04/11/2024	G THOMPSON LENGTHSMAN TEAM	78	660.00
04/11/2024	EON NEXT ELECTRIC CHARGE	79	17.51
04/11/2024	BANK CHARGES	80	7.20

*It was resolved that the payments referred to above should be approved*

06/25 To appoint Sandra Wiseman as the internal auditor for 2024/25 at a fee of £190.00 and approve the Terms of Reference and Internal Control / Suggested Testing Methodology the relative documents having already been circulated

*It was resolved that Sandra Wiseman should be appointed as the Internal Auditor and that the documents referred to above should be approved.*

07/25 To consider and approve the following documents which have already been circulated to members:

- The Councils Risk Management Policy Statement 2025
- The Councils Risk Management Register 2025
- The Councils Asset Register 2025
- The Review of the Effectiveness of the Internal Audit and Internal Control 2025

*It was resolved that the documentation referred to above should be approved subject to a minor change to the Asset Register 2025 which should read four kissing gates on Miller Green rather than three*

08/25 To consider the attached quotation of ££3501.00 plus vat and decide whether this Council wishes to take forward the installation of a fountain in the pond at the junction of Lea Road and Cottam Way to replace that which is now defunct. It should be noted that the installation will require an electrical connection which Preston CC will make without charge to the existing supply unit located by the cross. In addition, and due to the nature of the installation, maintenance will be required on an ongoing basis since pond fountains do clog up with debris from time to time. It is not possible to know at this stage how regular this might be however it would involve costs of approx £300 per occasion and could be undertaken by the supplier or if happening on a frequent basis, additional debris filters might be required at a current unknown cost.

The proposed installation contractor has suggested that in order to clean the water to some extent, the removal of bull rushes, the planting of more appropriate water plants and the contouring of the bank side which would extend the water surface area would improve the water condition and hopefully help with its condition and filtration. An estimate is enclosed from a recommended contractor to do the above work and plant two hundred marginal plants at a cost of £3578.30 plus vat.

The Council is asked to consider the above proposals and decide how they wish to take the proposals forward. To undertake BOTH proposals will require a net budget of £7079.30 plus the potential ongoing maintenance costs.

*It was resolved that BOTH proposals should be approved, accepting that there would be ongoing maintenance costs and that an initial budget of £7079 should be set using CIL monies.*

9. To note that the next meeting is scheduled for the 3<sup>rd</sup> March 2025.

*It was noted that the next meeting is scheduled for the 3<sup>rd</sup> March 2025*

Dear Sir or Madam,

**Application Number:** 06/2024/1254

**Proposal:** 24no. residential units (Class C3) and commercial development (Class E(g)) with associated access, landscaping and infrastructure

**Site Address:** Land off Cottam Way, Cottam, Preston

**Grid Reference:** 349283 432049

In accordance with the Local Government Act 1972, I wish to notify you that the above application has been received.

**The application is available to view on the Council's website at**  
<https://selfservice.preston.gov.uk/service/planning/search.aspx>

I would be grateful to receive any representations your council may wish to make on the application by **23-Feb-2025** quoting ref: **06/2024/1254**.

Please note that any letters / comments you provide may be made publicly available on our website.

If you have any questions, please contact **Laura Holden** on **01772 906587**.

Yours faithfully,

Development Management

Hi Bill yes I will take the cleaning off it was both ears that needed a new top and one also had a problem with a crack at the base.

I can do this for £2,200 if that works for you?

On Tue, 3 Dec 2024, 07:37 clerk@leacottam-pc.gov.uk, <clerk@leacottam-pc.gov.uk> wrote:

Thompson

I have been looking at the WAR HORSE again.

The sculptor has now been cleaned as has come up well.

All that remains is the question of the damaged ear.

I note you quote below and assume that this included cleaning which is not required now. The replacement head at our other site cost £1850 so an estimate of £3500 for cleaning and the ear replacement seems excessive.

Obviously we would like you to be able to do it but as there is no cleaning and the work must be significantly less than the head can you revise your quote for our further consideration.?

Bill

# SOFT SURFACES

## RHINO MULCH – Resin Bound Rubber Mulch Surfacing Information

### Definition

A 'Rhino-Mulch' surface is a colour coated rubber shred of mixed particle size, bound together with a single part polyurethane resin. This is mixed on site in our specialist mixer and laid on an existing suitable\* or specially prepared bases to provide a virtually continuous surfacing. It is most commonly installed as a single layer system, typically 40mm thick is the standard system thickness.

Our Rhino Mulch surfacing is an in situ laid resin bound rubber shed surface and has been tested to the following method as described in BS : EN 1177 : 2008 *"Impact Absorbing Playground Surfacing – Safety requirements and test methods"*.

**Wearing Course** / layer is constructed from various sized flat shred Styrene-Butadiene Rubber made from solid rubber which is then coloured by the encapsulation process. This gives a natural looking finished material which gives a great looking finish surface and one that offers impact absorbing properties and excellent lateral stability and flexibility over other alternative surfaces.

Rhino Mulch is self-supporting and therefore can be laid over most existing surfaces\*. Moreover it will easily work directly onto almost any existing ground conditions including grass or soil, old tiles, Type 1 stone or concrete: it will follow the natural sloping contours of the existing ground and / or absorb very minor undulations and can even be spread directly over tree roots and around plants, Cure time varies but is generally 4-6 hours, subject to weather, but we advise you refrain from using the area for 48 hours or until you are satisfied it has fully cured.

On existing grass / spoil sites, the area may require some regulation, (which is not allowed for unless specifically stated in writing on our quotation) and will follow existing ground contours. It is not designed to regulate existing uneven ground. Please make clear to us your specific site requirements / specification and we will be happy to advise further, please just ask.

For any surfacing laid over existing grass areas, we require the grass to be cut as short as possible (by others) prior our installation to give best results. Where the area does not have a retaining edge, the surface will be graded down just below ground level. To increase the longevity of the surface, we do advise a dynamic sub base in all instances. If the existing sub base is concrete, tarmac, etc. the surfacing can be superimposed up on it\*.

Rhino Mulch surfacing is extremely porous so consideration should be given to site drainage prior to the final Rhino Mulch installation.

*\*but we offer no guarantee as to the performance of any existing sub-base or its suitability.*

The system is designed for some loose shred to be present on the final top surface and it will wear more quickly than a coloured Wetpour surface. Therefore, high traffic areas eg below swings, adjacent to roundabout, at gateways and at the base of slides etc. will wear more quickly. Wear Pads of colour EPDM should be considered in these locations. We recommend this is left in place as it still contributes to the overall system performance.

**We do NOT regard Rhino Mulch as suitable surface for nurseries where users may crawl on the area, due to potential black rub-off.**

Water House, 35 Water Lane, Wilmslow, Cheshire, SK9 5AR

## DATA PROTECTION / GDPR / EMAIL ACCOUNTS / DATA STORAGE / BACKUP FACILITIES.

### FACTS:

1. A council must by law ensure the confidentiality of all personal data, even if it is being processed through personal email accounts
2. Councils must by law process personal data securely – this is almost impossible to achieve if it is being processed through personal email accounts.
3. Councils must by law demonstrate that they are UK GDPR compliant – this is more difficult to do with the use of personal email accounts.
4. Principal Authorities provide Councillors and Staff with their own .gov email addresses
5. Should a Personal Data Request occur, examination of records both hard copy and electronic including data within emails must be searched and this therefore includes personal email addresses being used on Council business.
6. The recommendations of The Information Commissioners Office and the Joint Panel on Accountability and Governance, Practitioners Guide 2023 is that Council's should provide official email addresses for councillors, the clerk and any other officers. These email accounts must only be used for Council business and can be searched by the provider from their servers direct, saving any need for personal emails having to be searched.
7. The Council itself must not retain personal data for longer than it is required to deal with the purpose for which it was obtained. This by its very nature means that members must not retain any personal data on any of their own devices.
8. The Council are required to back up non personal data electronic records and must have a system in place to achieve this. Lea and Cottam currently back up electronic records using an external hard drive which meets this requirement but is time consuming and tedious given the 'cloud' facilities that are readily available which include back up in real time.
9. Personal data includes an identifier like:
  - Your name
  - An identification number, for example your National Insurance or passport number
  - Your location data, for example your home address or mobile phone GPS data
  - An online identifier, for example your IP or email address.
  - Bank account details

The Council are requested to provide Council email addresses to all members for use solely in connection with Council business. (Cost £20 per member per annum)

The Council are further requested to set up 'cloud' backup facilities with Vision ICT (Cost one off set fee of £50, plus £10 per month)

The Council include within its policies a document instructing its councillors not to retain any personal data on their personal devices.

## Avenue Aluminium Frame

A lecturn-style aluminium frame with integrated artwork. The frame sits on 50mm box section legs which are welded to a 5mm aluminium backing tray. Welded on footplates keep the frame firm in the ground. Your artwork is printed and baked onto an aluminium panel which has excellent UV, fire and vandal resistant qualities.

The artwork panel is placed on the backing tray and a picture frame cutout tray clamps over the top of it giving a nice frame to your panel.

The whole frame is powder-coated in black as standard and can be finished in satin or gloss as required.

### Al size frame specifications:

**Posts:** 1.6m allowing for 500mm in the ground.

**Height:** 1m at front edge, 1.2m at top edge.

**Overall size:** 644 x 891mm.

**Cost: £2609.00**

**Quantity: 2**

25" x 35"

**Delivery time**

4-6 weeks

All prices include artwork, proofs, and delivery and are subject to price ruling of material, upon approval a proforma invoice will be supplied if you do not have an existing credit account.

## Recycled Plastic Lectern

The Forest-Saver recycled plastic lectern is a perfect way of displaying information about the surrounding area. Whether it's the history of your location, the local wildlife or simply a map of the area.

The Forest Saver material is guaranteed for 25 years against rot, decay and splintering.

Supplied with anti-vandal panel created from supplied artwork. Supplied fully assembled. The anti-vandal panel has a 10 year guarantee. It withstands aerosol sprays, marker pens, paint, naked flames and sharp objects. The anti-vandal coating is BS 3900 compliant.

**Material:** Recycled plastic

**Artwork Size:** A1

**Print Type:** High-pressure laminate print

**Colour:** Black or brown

**Fitting:** Concrete in

**Cost: £2170.00**

**Quantity:** 2

**Delivery time**

4-6 weeks

All prices include artwork, proofs, and delivery and are subject to price ruling of material, upon approval a proforma invoice will be supplied if you do not have an existing credit account.

## Breeze Lectern

Breeze Post Mounted Lectern is ideal for use as an information point. The 40mm deep lockable frame is powder coated inside and out and has a magnetic backing for use with magnets. Supplied with single top hinged, self supporting door, glazed with 2mm thick polycarbonate with security Allen key. The board is mounted onto 60mm square posts that are supplied as standard in black. They can be powder coated to match the board or a different colour at additional cost.
